SAN BERNARDINO COUNTY SWITCHES PROVIDERS TO IMPROVE RESEARCHING GRANT OPPORTUNITIES – EFFECTIVE JULY 1, 2009

For More Information, Please Visit:
www.sbcounty.gov/GrantsOffice.

New Provider

As of July 1, 2009, San Bernardino County Faith Based and Community Based Organizations (FCBO) will be able to research funding opportunities through the County's direct website:

www.sbcounty.gov/GrantsOffice/GOStream

GOStream, a mechanism provided by Grants Office, LLC, the County's new provider, offers a live feed of the most recently released funding opportunities within 19 different funding categories including Agriculture, Business & Commerce, Community Development, Consumer Protection, Cultural Affairs, Disaster Prevention & Relief, Education, Employment & Training, Energy, Environment Quality, Food & Nutrition, Health, Housing, Social Services, Information/Statistics, Law/Legal Services, Natural Resources, Regional Development, Science & Technology, Transportation, and Homeland Security.

How Does This Benefit You?

As a FCBO, you will now be able to search for information conveniently from any computer with internet access.

GOStream also allows users to effectively disseminate grant information by generating summaries of funding opportunities that can easily be printed and/or emailed.

How To Get Access

To be eligible for access, your organization must provide services to San Bernardino County residents and be on the San Bernardino County Nonprofit Distribution List. To join, visit the San Bernardino County Grants Office website (above), click on "Join Our Distribution List", which is located on the right-hand side of the screen, and complete the information. Once you have joined and access has been granted, you will be able to access GOStream through the website by using your email address as a login.

If your agency is currently receiving email notifications from the San Bernardino County Grants Office, you will not need to rejoin the distribution list. A summary of the distribution list's current members is available online for verification.
